

# How to start programming?

## Online development via Husarion Cloud

This is the easiest way to use RoboCORE. You only need to connect RoboCORE with Husarion Cloud. There are 3 types of devices which can provide the Internet connection between RoboCORE and the Husarion Cloud.

### Connecting RoboCORE to the Internet

Choose the one which device are you going to use with RoboCORE:

(you will be redirected to the more detailed instruction for each method).

Please remember that you can connect RoboCORE with Platform using Android device, iOS device or Intel Edison but you cannot use both of them at the same time.

### Offline development

All instructions how to develop RoboCORE locally are available [here](https://wiki.husarion.com/).
